

SAFE HOME . . . Simply The Best In Security

SAFE HOME is not only the world's most advanced wireless security system, it is also the easiest security system to install and operate. From hassle-free installation, it to ultra-sophisticated sensor design and a full range of innovative "user-friendly" features, Safe Home puts the power of new technology at your command like never before. When it comes to helping you protect things you value most, **SAFE HOME** is simply your best choice.

**Special Care For Elderly Or Disabled**

SAFE HOME is designed with special security needs in mind. In addition to a full range of personal emergency pendants, **SAFE HOME** can call for help should it detect a lack of activity within your home or business.

**Be Informed, Wherever You Go**

SAFE HOME can call any telephone and leave a clear, concise voice message notifying you of system events such as alarms or latchkey disarming.

Security Made Simple With SAFE HOME**You Are Never Alone**

SAFE HOME is designed to respond instantly to any type of emergency (fire, intrusion or personal) - automatically or at the touch of a button.

Your Direct Voice Connection To Emergency Response

SAFE HOME provides a nearly instant voice connection to the cell phones / land lines in the event of an emergency without the need to press buttons to talk or listen to the owner.

Custom Designed For You

SAFE HOME offers a full range of built-in security features. Door chime, for example, lets you know when a child has opened an outside door or when a customer has entered your business.

**Peace Of Mind Installation**

Because it's wireless, **SAFE HOME** installs in hours, not days - with no mess, no wires, no dust or imposition.

Less Worry For Working Parents

Parents need to know that their children are home safely from school. If a child does not disarm the system within a scheduled time, **SAFE HOME** will call you telephone or pager to let you know.
